

joel and i did an interview at this music fest
it was suuuper weird
like i didnt think it would be like how it was
like difficult

5:45 PM

i lied sooo much

me: yeah well maybe your thinkng of subject too much in relationship to lyrics. but that is obvi
can stay the same, like madonna and shit taking nearly about the same shit all the tiem, it would
be ice to see reall differeance in the format and just performance

Rian: hahaha

yeah i know

like i want to not do prerecorded stuff anymore
but jus thave only one intrument at a time

me: hmm yeah i could see that being real shit

Rian: super mininaml

mnml

5:46 PM

me: dude i wish we could do a perfomance with a ball

Rian: ball?

oh like the gymnasts

?

me: like a bouncy ball soccer ball

yeah

Rian: that would be good

its hard though

5:47 PM

cuz how do you keep it all interesting with only one thing as an accompanymnt

me: thats what i was thinking, i still hav to plan for the one in philly, emma trying to get out of it
and got o some church in ny that sunday, and its sucks cause i know she could be really
hilarious, but maybe not so good at comign up with an idea, but i thought it could be cool if we,
laura emma me had a kiddy pool

and did monoloughes from them or soemthing liek that

5:48 PM

but that could be dumb

so not real monolouges

Rian: hahaha

that sounds good

like the vagina monologues

that shit was sooo nar

me: sounds good but would probably bee a huge mess

Rian: wiat when is it?

5:49 PM

i wish i was there

me: the 7th wish you were too but your in baltimore

Rian: oh yeah

me: yeah but what kind of monoloughes would i do

maybe i should be really mean ones

5:50 PM

liek i hat eyou

Rian: maybe you should do waiting for godot in a kiddy pool

me: but i would have to memorize them or soemthing

Rian: or just lift tons of dialogue from that movie the cell

ahhaha

me: maybe i can get people to bring stuff and then throw them in the kiddy pools

Rian: lifting dialogue from the cell as monologues is actually genius maybe

hahahah

me: or maybe i dunno wtf

5:51 PM

Rian: espically since the cell has so much to do with water too

me: THE CELLL!

thats the key!

Rian: for sure
the cell is good
hahahah

me: i dunno what i would be wearing

Rian: make those red suits
haha
i dont know

5:52 PM i told joel that he should dress super tourist
so that when he takes pics of people they will just think its some sort of art character or
somehting

5:53 PM maybe you should weeeeear
sailor suits

5:54 PM or those shirts that have bathing suit people on them
or borat bathing suits

5:55 PM or hair thats just so long that it is a bathing suit

me: what red suits

Rian: the red suit in the cell

5:56 PM **me:** hmmm thats way too much effort
iddnoo what to wear

Rian: make it super new yorker and just wear really nice business suits
itll look like a new yorker comic
hahaha

me: i htnk nothing and the performace should just have kiddy pools and maybe its us just filling
up the kiddy ppool and putting ice in it and then tons of beer and whatever just get drunk and
then have some sppoken word or somehting id noo
yeah maybe sutis could be cool

Rian: hmmm

5:58 PM i guess thats good
you could do better

me: not really but i dont want to be this aesthetic subject person where it just takes ont he same
theatrical barrier that performances always take

5:59 PM **Rian:** yeah
true

then why not just do slippy slides
and slippy slide into the audience

me: its like i dunno if the econmy is really sound, but i gotta do something so mind as well make
it something worth talking about
not the ECONOMY

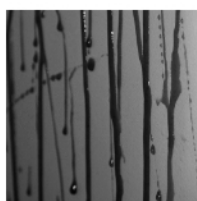

Rian: and pour beer on a the slippy sldie

6:00 PM **me:** but the how things are worth the things
yeah but thats already soo dumb jock art jock
maybe no beer idnno

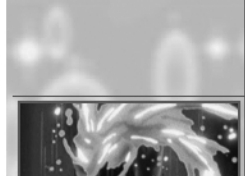

Rian: true
hahaha

6:01 PM i thin kno beer
what if you had some sort of weird sprinkler system going
and then it just rained blood
ahahha

i dont know
me: does jello always have to be refrigerated

6:02 PM **Rian:** yeah kinda
me: how can i work with water,
oh dude bubble bath foam or...
i dunno techno
i dnno
Rian: ooo that could be good
me: but there fucking kiddy pools
Rian: maybe make those huge bubble string things
me: maybe just a little bit of fun
i dunno im afraid they just turn into objects
Rian: and hten fill the pool wiht bubble mix stuff
me: would be cool if they could function
Rian: and then dip the bubble string things in and make bubbles
me: yeah!
thats it!?
Rian: yeah thats good
6:03 PM **me:** but soemthing else too
Rian: !
yes def soemthing else
but its a good startahha
me: because that is soooo miranda JULY
Rian: ooo yeah huh
me: maybe mean text on the walls
about together ness and how diy spaces are flawed and gay
Rian: i wonder if you could add food coloring to the bubbles or soemthing too
6:04 PM **me:** and stain everyones clothing?
like i hate you with bubbles
Rian: hahaha
yeah
me: like mercury bubbles
Rian: hahahahaha
ahhaha
thats good
me: or squirtel from pokemone has this pretty kickass atack caulled.... fugggggg.....
Rian: or a tiny hole in the bottom of the pool
so it slowly leeks everywhere
and you pretend it was a mistake
me: bubble beam its actually a stameana thing but lemme find it
Rian: k
maybe you should all be dressed as squirtells
6:06 PM **me:** this is it its the bubble and text how i hat diy spaces or maybe this chat i can put up or
soemthing so thats its like one of these art works that becomes like a movie within a movie or
some shit like im sooo narcissistcially trying to commodify myself or somehitng
Rian: haha
yeah
me: food coloring a must cause then it can stain the walls and cieling and everthing
Rian: or like overhead project it
me: bubble graffiti
6:07 PM **Rian:** bubble grafitti
ahhaah
me: DRESSED AS SQUIRTELS!
Rian: sooo wtf

ahhahaah
 is that possible though
