

As you say I for me

Caught hand on manual door

I wonder. How forcefully must I ask until a statement of intent leaves grains at the bottom of a glass.

A question thought appropriate to ask at this moment  
As water overturned without following lines towards a larger body

Caught wave in automatic window.

Semibreve

It sleeps for only 3 hours a night, and wakes up unrested  
Taking the fewest seconds to arrive at a destination.

Read me that list again  
To miss an exit would be to miss the task at hand.  
A resulting end  
in an

Emergency evacuation

Sedition

Or

Crisis Management

A migration towards the passenger side  
With seat warmer.

As you say us for me.

How many members until we can stay here for a discounted rate,  
Finding someone to fill the seat should be a cinch.

The collected work of stem cells  
The delirious vacance

Two many shades of window  
And the heaviest heavy balances checkbooks  
I could basically see her from here standing straightforward -S.

It's like I basically have wanted to do this for years and it's like basically  
I have been sitting looking and thinking all without a pillow behind my back

The sopranos wait by the west terminal gates  
And multiple highlights unfocus the frame of some thick awkward smile

a two  
house home  
can  
basically fit everyone unless she asks again if her dumb boyfriend who we all  
basically think is gay  
can join

or try to

depoliticize a presumption that when pulling apart thigh from breast a decision can be avoided between white and dark meat

How heavy can you carry in your 10 kilo bag

It's hard, this sex

W

To connect or to tether  
A personal: noch ein o.k. o.k.

I'm seeing you from the rearview mirror  
"I can feel our ride more than I can hear this music"  
I can barely make out what you...  
I picked up my phone and basically heard the voice of an angel  
Ponytail tucked away and hidden  
It shatters like a broken windowpane  
One sound of knife blade grinding

filet filet filet

dancing on either side of the road

of feeling the hunger and  
inability to eat one thing after another  
setting up shop in the courtyard while scraping the tuna tin for scraps enough to fit on one cracker

ungrippable steps for two parallel feet  
deep  
widths  
of riot stairs

Taking two handles and passing them off to your besties  
Now you take this and you take this why because oh I don't know I just want you to have it.

Tug at your ear from the audience if you want to fuck me  
But show me everything if what you want is a kiss.

Standing at the top of the stairs waving hello and tumbling downwards

It will pass between your hands and mine and I'll say that I know that this is about

Congenial denial  
Forgotten dismissals

TETHER ME BLANKLY

Hidden between the unwoven seams of a plus one designer  
Folding air into whipped worth taken as meal replacement  
It grows and grows and grows and no body knows but +1 asshole asks for approval

I know that first class is a fingertip away  
I know that I can't leave without a toe in tow  
I know that the space between two doors equates a lifetime.

It is to be basically there but totally not

A henley T  
A window display  
A basic account  
Meaning –  
NOT CORPORATE  
NOT STUDENT  
Just person who sits between powder coated grey and navy blue leather

Can you tell the story of feels on a fingertip?  
Can Hannah hold her lifetime in her fingerprint?  
Will sitting on a white couch looking forward  
Display future  
Gesturally in her face  
Desire is sexy - but totally fucked is ok too.  
Sucking consonant  
Watch one thing fall off of another  
A fallen short misunderstanding of a reality that isn't your own  
A service response reacted to delay

No tip  
Gratuitous denial and small guilts of your partner to follow  
I just can't do math

JUST GLOW

And radiate abundance and shit  
Cultivate reception  
And remember that with tubes, anything flows both ways

Two lips that can stay forever in a perfectly rounded o  
Wall to wall carpeting reaching towards walls to walls

Conversing brinks sinking slightly inwards

I WILL FALL IN LOVE WITH YOU EVERY SPRING UNTIL THE SUMMER I DIE
